

Bob Hernandez for Hamel Trustee

I want to take this opportunity to introduce myself and tell you why I feel qualified to seek your support in my candidacy as a Village of Hamel Trustee.

My priorities for Hamel include measured growth for the community, an organized approach to handling the current issues facing our village, as well as bringing new technology to the forefront so that our village can compete with our surrounding neighbors and emerge as a leading community in Madison county.

I have a strong background in Finance, Real Estate, and the Technology Industry. I am a business owner and I understand what it takes to succeed. I am not afraid to speak up when I don't feel that something is right or makes sense. I always have an open ear for my peers and listen to every suggestion no matter what. Sometimes, one solution is not the way to get the job done. The more ideas that are on the table, the better chance you have at taking a small piece of several diverse solutions to create the **ultimate** solution. I am motivated, driven to excel in the face of adversity, and offer organization in a sometimes chaotic world.

Each year, the government takes just a little more of the family budget. The average American family now pays more in taxes than they do for food, clothing and shelter combined. A strong family is one that is not overtaxed. We must reduce the tax burden on working families so they can afford college for their children, a mortgage on a home and providing the basics of food, clothing and shelter. We need to open Hamel up to new businesses that can offer "Business to Business" sales and service transactions and bring steady measurable growth and revenue to Hamel. The key here is to grow slow, and grow the right way. I can help with the decisions that can help make that happen.

More than ever, it's critical that we maintain an organized approach to making decisions for our future. It starts with you and me. If you believe as I do that we need well organized government, and need to keep our eyes open and focused on the future, please consider voting for me on April 7th. Together we can make a difference!
